

Power to Save

To help DC businesses save on energy, Think Local First is providing free, simple energy assessments from March 15th to April 22nd.

DC university student teams will compete to perform the most assessments, which are free, take less than 30 minutes, and show businesses how they can easily save on energy costs.

Want to cheer on these college students and get your name out there with local businesses? Sponsor a PowerUp, a prize large or small, and spur the students on to victory!

To offer a meal from your restaurant, a gift certificate, or other prize for a student leader, please contact kpelzer@nextility.com.

To sign up for an assessment, visit powertosavedc.com.
